SmartLink Git Quiz 2026 — Post-Event Analysis

Organized by SmartLink Tech Team | Date: 2026-10-22 | Generated: Layer 3 Analytics

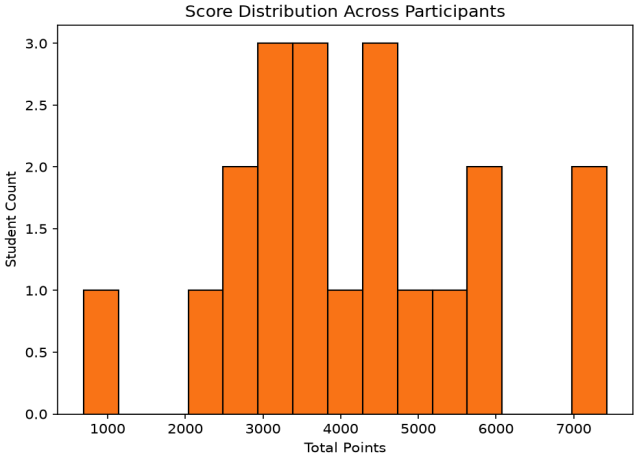

Executive Summary

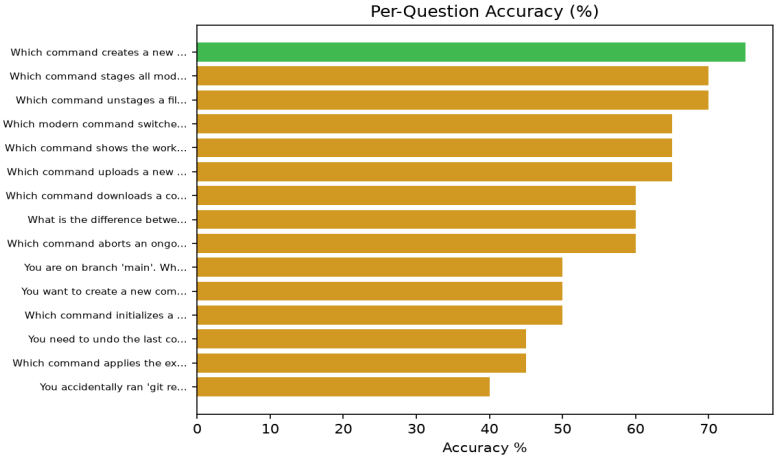

SmartLink Git Quiz 2026 concluded with outstanding participation from 20 students submitting a total of 300 answers. The cohort achieved a mean score of 4129 points (median: 3894), with the top competitor reaching 7426 points. Analysis shows that 'Which command creates a new branch named 'feature-login' without switching to it' was the easiest question with a 75.0% accuracy rate, whereas 'You accidentally ran 'git reset --hard' and lost unpushed commits. Where can you' posed the greatest challenge at 40.0% accuracy. The most-missed topic area was 'advanced'. Overall engagement remained remarkably steady from Question 1 through Question 15, reflecting solid foundational Git enthusiasm across all participating colleges.

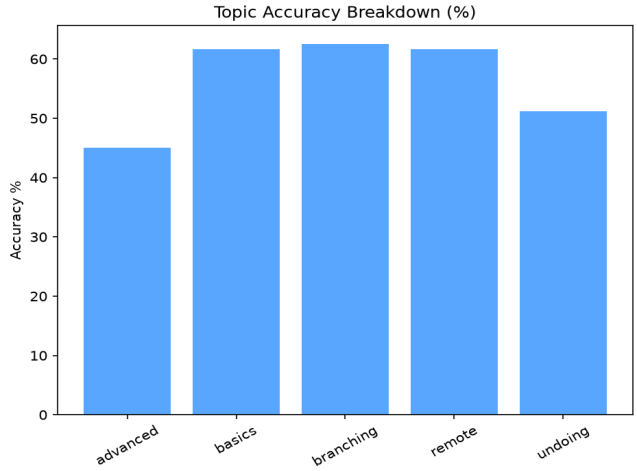

Key Competition Metrics

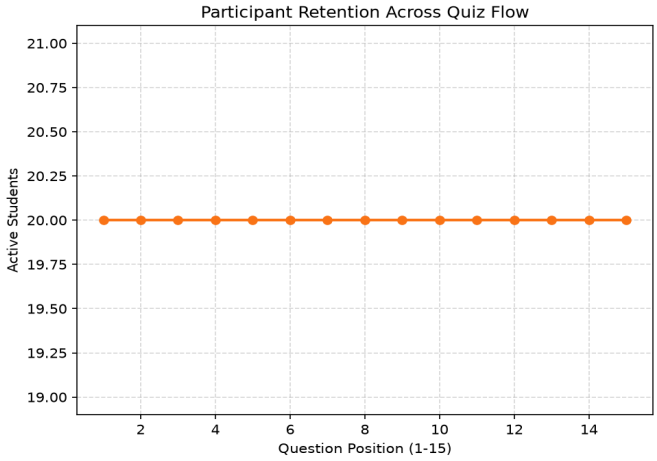

Metric	Value	Metric	Value
Total Participants	20	Mean Score	4129 pts
Total Answers	300	Median Score	3894 pts
Hardest Question Accuracy	40.0%	Max Score	7426 pts
Easiest Question Accuracy	75.0%	Most Missed Topic	advanced
